Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 October 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on October 12, 2004 has been entered. Claim 1 has been amended. No claims have been cancelled. No claims have been added. Claims 1-7 are still pending in this application, with 1 and 7 being independent.

Drawings

2. Applicant failed to provide drawings. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1-7 are rejected under 35 U.S.C. 102(a) as being anticipated by White et al. (US 5,933,490) as for the reasons set forth in Office Action mailed on 4/7/2004, and which is hereby incorporated by reference.

As for the newly introduced limitation reciting “the sequence for searching being variable and being determined by at least one variable factor”. It is inherent from White’s system that a hunt group performs a search sequence determined by a variable factor, for example, hunting depends of variables like “busy destinations” and “idle not busy” conditions. Further, the process of hunting may start randomly, thus implying that the sequence for searching is variable, since any of the hunt group line triggers the process.

Response to Arguments

5. Applicant's arguments filed October 12, 2004 have been fully considered but they are not persuasive.

Applicant argues in page 6 that White et al. fails to describe or suggest “search[ing] multiple alternative ISP in a sequence”. Examiner respectfully notes that the argued matter is irrelevant to the issues in discussion.

Regarding claim 7, Applicant’s argues in page 6 that this is a means plus function element, and then cites a portion of MPEP 2181. However, MPEP 2181 also recites, “if

one employs means plus function language in a claim, one must set forth in the specification an adequate disclosure showing what is meant by that language. If an applicant fails to set forth an adequate disclosure, the applicant has in effect failed to particularly point out and distinctly claim the invention as required by the second paragraph of section 112." -In re Donaldson Co., 16 F.3d 1189,1195, 29 USPQ2d 1845, 1850 (Fed. Cir. 1994) (in banc).

Applicant failed to point out how does the Specification supports the claimed means plus function element. The Specification provided by Applicant broadly suggest that "the invention relates to the use of all forms of communications, such as voice communications, which may be involve fixed...telephone, or data communications". Such functions are performed by White's system.

Arguments directed to the newly introduced limitation are discussed in the body of the rejection above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2642

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
